EXPERIENCE

Coding with Kids   **Dec 2022 - Present**
Online Coding Instructor

- Coding with Kids is a coding academy for elementary and middle school students.
  (https://www.codingwithkids.com).
- Create, differentiate, and teach small lessons on coding concepts to elementary and middle school students.
- Increase student understanding and application of coding skills by evaluating student progress on projects and activities and communicating progress to parents.

Sarah Bartley   **Aug 2015 - Present**
Frontend Web Developer   *Canton, OH*

- Organize front-end performance by 15% by debugging, marking up code according to current coding standards, and running tests.
- Deploy two WordPress websites under budget by using PHP to edit existing WordPress themes, create custom page templates, and refactor code to improve website features.
- Improve Free Code Camp open source programming guide by writing and contributing 3 articles about visual design.
- Increase front-end web developer productivity by collaborating with three developers on the Grow with Google 2018 front-end web development resources guide.
- Grow the Elphas Can Code online community by 10% by reviewing community posts, enforcing community guidelines, and creating conversation topics for all members to participate.
- Write and maintain documentation for web applications on Github.

BritishPandaChick   **Mar 2015 - Present**
Producer   *Canton, OH*

- Increase user engagement by 15% by writing weekly content, communicating with readers on social media platforms, optimizing SEO keywords, and interpreting user analytics.
- Contribute content to App Academy's The Cohort blog, The Practical Dev #shecoded celebration, and Code Newbie newsletters.
- Create email marketing campaign in 2016 for Teachers to Tech guide with MailChimp and Canva.
- Manage 3 blogs by researching fixes and solutions, building sample code projects, and designing blog graphics.
- Promote Visme features by designing projects and writing tutorials on how to use the platform.
