EXPERIENCE

Online Coding Instructor, Coding with Kids, Remote

2022 - 2026

- Delivered live coding instruction to learners ages 7–18 across 4+ years, driving 80% session retention through engaging, learner-centered curriculum and real-time instructional adjustments.
- Designed and iterated on instructional content by identifying skill gaps during weekly office hours, ensuring mastery of core programming concepts through differentiated support and scaffolded learning.
- Strengthened developer community engagement and stakeholder relationships by producing weekly technical newsletters, hosting monthly demo nights, and delivering progress reports — building a feedback loop between educators, learners, and parents.

Guest Speaker, Girl Develop It, Remote

2021

- Designed and delivered a virtual presentation, *How to Start a Freelance Career in Tech*, to an audience of 100+ learners, collaborating with the Girl Develop It team on content development and program coordination.
- Developed and facilitated a virtual learning session, *How to Start a Freelance Career in Tech*, for 100+ attendees; partnered with the Girl Develop It team on instructional planning and engaged participants through a live Q&A.
- Conceptualized, developed, and presented a technical talk, *How to Start a Freelance Career in Tech*, to a community of 100+ developers; drove audience engagement through facilitated Q&A and cross-functional collaboration with program organizers.

Moderator, Elphas Can Code, Remote

2018 - 2022

- Launched and moderated Elphas Can Code, a developer community that scaled from 0 to 50 members within the first week and grew to 100+ members, driving engagement through strategic content curation, community health management, and policy enforcement.
- Curated and published developer-focused educational content within a 100+ member community, adapting content delivery strategy as the platform migrated from a dedicated group page to a hashtag-based model, ensuring continuity of engagement and learner experience.
